4.0	16.50	148
5.0	19.50	176

Reptile: Small Herbivore		
Weight	Dry Product	
	Tbsp	Grams
0.3	0.5	4
0.5	0.75	7
1.0	1.25	12
1.5	1.75	16
2.0	2.25	21
2.5	3.0	28
3.0	3.5	32
4.0	4.0	35

Directions For Use:

As a general guideline, mix 1 part Critical Care® to 2-3 parts warm water, depending on feeding method (syringe vs. feeding tube). The volume of water may be adjusted to obtain optimal feeding consistency. Amounts are general guidelines and should be adjusted based on patient condition. Divide into 4-6 feedings or as indicated by your veterinarian. Water should be always available to the animal.
